Danish representation on The Wadden Sea Board

Dear Professor Lochte,

We are pleased to inform You, that as of January 1st 2019, Deputy Director General Christian Bruhn Rieper have been appointed head of the Danish delegation on the Wadden Sea Board.

Further we also take this opportunity to propose the Wadden Sea Board to consider the possibility of a further advisory seat at the Board to be held by a Danish representative of green NGO's, relevant for – and already committed to the trilateral strategies etc. for the Wadden Sea area.

We thus forward the above proposal to the Board in line with a wish of underpinning the Danish commitment to the Wadden Sea Cooperation also by providing Danish stakeholders represented in this context a platform for contribution to the commonly agreed goals of the Trilateral Wadden Sea Cooperation.

We further suggest that the proposal be handed over to The Wadden Sea Team as a Danish request for their further action.

Yours sincerely

Henrik Pind G. Jørgensen
